

Call for papers : **Special Issue in Acta Geophysica on Statistical Seismology**

Dear colleagues,

Given that our session on Statistical Seismology in the 14th International Congress of the Geological Society of Greece was successfully accomplished, we are planning a special issue on this topic in Acta Geophysica. The special issue welcomes papers either from the participants of the session or from colleagues interesting in Statistical Seismology but who were unable to attend the conference.

In the case you are interested in contributing, please let me know by an email message (ritsa@geo.auth.gr) with the **tentative title**, the **list of authors**, and a **provisional short summary** outlining the aim and main objectives of the work.

Expression of interest: by 15th of September 2016

Submission deadline: October 2016

On behalf of guest editors, with my kind regards

E. Papadimitriou
